

INTRODUCING THE

# Rockport VAL University Program

## Rockport VAL - Cash Flow Modeling & Valuation Solution

- VAL equips the fast-paced world of CRE underwriting, cash flow modeling, and property valuation with a modern and reliable application.
- VAL is designed to build financial models for any CRE asset class including Office, Retail, Industrial, Multifamily, Self-Storage, and Hotel.
- 100% cloud-based, VAL is accessible anywhere, anytime, and on any device.

## Rockport VAL University Program

- At Rockport, we have a desire to invest in future commercial real estate professionals and provide them with the skills to enhance their marketability when entering the CRE job market.
- The Rockport VAL University Program provides complimentary VAL licenses and training to students interested in a career in commercial real estate.
- The program is hands-on and designed to give students the skills and experience in building financial models, leveraging the VAL platform.

### Program Includes:

Complimentary access to Rockport VAL for students

Complimentary training for students designed to be hands-on using real life scenarios

Complimentary Rockport VAL Certification **Exam**

Training guide in PDF format

Rockport support team available to answer questions and provide assistance using VAL

## Rockport VAL Certified Professional

**Increase your career marketability** by receiving your **Rockport VAL Certification**. This program offers future CRE professionals the opportunity to **validate their commercial real estate knowledge and Rockport VAL skills** with this designation. To become certified in VAL you must receive **85% or above on the certification exam** which consists of **70 multiple-choice questions** to validate your proficiency.
