Any changes to this Privacy Policy will become effective when we post or link to the revised Privacy Policy on the Site. Please review the **LAST UPDATED** legend at the top of this page to determine when this Privacy Policy was most recently revised.

For the purposes of this Privacy Policy, "Rockport", "we", "us", and "our" means Rockport VAL, LLC and their affiliates.

You do not have to provide us with any Personal Data to visit the Site. However, if you choose to withhold requested information, you may not be able to visit all sections or use all features of the Site.

This Privacy Policy shall also apply to any Rockport application and other forms of Rockport's online activity that reference this Privacy Policy. In such instances, the term "Site" shall include any Rockport application or other Rockport online activity whenever that term is used herein. In connection with your use of any Rockport's application, your Personal Data (and Other Data, as described below) may also be collected and used by your device manufacturer, your telecommunication provider, or other third parties involved in the delivery of the application or data to your device, and

such collection and use shall be subject to the privacy policy of the applicable third party. Rockport is not responsible for any third party's privacy practices.

Types of Data Collected

We gather Personal Data and Other Data (as described below).

Collection of Personal Data

Personal data is information that identifies you or can be used to identify or contact you, e.g., your name, email address, address, or phone number ("Personal Data"). We may need to collect and process Personal Data in order to provide requested information, products, or services to you (including the Site) or because we are legally required to do so.

- Rockport requests Personal Data from you if the Site requires registration. The registration process requests that you provide your name, business email address, business address, business phone number, and company affiliation, and agree to the User Agreement presented at the time of registration.
- Rockport may receive Personal Data from social media platforms. For example, if you elect to use your social media credentials to log in to your Site account, certain Personal Data from your social media account will be shared with us, which may include Personal Data that is part of your social media profile.
- Rockport may collect Personal Data voluntarily provided by you, including in emails to the Site, online forms, order, and registration forms, surveys, promotion participation, phone calls, and online chats with Rockport's customer service and through other means.
- On some of Rockport's Sites, including www.rockportval.com, you are able to maintain "property" or "portfolios of property," where, if you are a registered

user, you have the option to list financial information and financial instruments in which you have an interest. To be useful, this information must be stored on the Site, and is accessible to anyone with whom you share your username and password. For this reason, please safeguard your username and password carefully and do not disclose it to any other person.

- We may use third-party payment services (each, a "Payment Service") to collect payments made through the Site. If you wish to make a payment through the Site, you may be directed to a webpage that is hosted by the Payment Service (or the Payment Service's service providers) and not by Rockport. Any Personal Data that you provide through a Payment Service page will be collected by Payment Service and not by Rockport, and will be subject to Payment Service's privacy policy, rather than this Privacy Policy. Rockport has no control over, and is not responsible for, Payment Service's use of information collected through the Payment Service page.
- Rockport may collect information through various other means, including participation at conferences and events, individual introductions, from employers that enroll their employees in our services, and from selected third-party business partners. From time to time, we may also acquire from third parties certain lists containing the names and contact information of individuals who may be interested in our products and services.

Use of Personal Data Collected

We use Personal Data for legitimate business purposes, including the following:

If you or your employer is a Rockport customer, we may also inform you of such products, programs, services, and promotions using Personal Data about you that you or your employer provided to Rockport. If you would prefer that we not send electronic marketing messages to you, please see **Your Choices** section below.

- Promotions

We may operate sweepstakes, contests, and similar promotions (collectively, "Promotions"). If you choose to enter Rockport Promotions, we typically ask you for certain Personal Data when you enter and, if applicable, win a Promotion. You should carefully review the rules of each Promotion in which you participate, as they may contain additional important information about our use of Personal Data about you. To the extent that the terms and conditions of such rules concerning the treatment of your Personal Data conflict with this Privacy Policy, the terms and conditions of such rules shall control. We use this information to operate the Promotions.

- Other Business Purposes

We may also use Personal Data about you for other business purposes, such as data analysis (for example, to improve the efficiency of our services), editorial and feedback purposes, providing customer support, customizing and improving the content and layout of the Site, completing business transactions (for example, to confirm content requested is received by customers), development of marketing and promotion plans and materials, statistical analysis of user behavior (for example, to understand what parts of the Site are of most interest to users), product development, market research, administering individual accounts, and meeting government regulatory requirements such as sales tax collection, audits, etc. We may also use Personal Data of journalist/media contacts for press release distribution or sharing other newsworthy developments related to our business activities. We engage in these activities to manage our contractual relationship with you, to comply with a legal obligation, and/or because we have a legitimate interest.

- **Administrative Communications**

Rockport reserves the right to use Personal Data to send to you important information regarding the Site, products, services, your account status, changes to the User Agreement, this Privacy Policy, or any other policies, agreements, or transactions relevant to your use of the Site, products and/or services. Because this information may be important to your use of the Site, products, and/or services, you may not opt-out of receiving such communications. We will engage in this activity to manage our contractual relationship with you and/or to comply with a legal obligation.

Collection and Use of Other Data

We and our service providers may also collect and use the following types of data, referred to in this Privacy Policy as "Other Data":

- Monitoring Data

Rockport and its service providers may collect and/or track other information such as demographic information, domain names, computer type, browser types, screen resolution, and other statistical data involving the use of the Site ("Monitoring Data"). We use Monitoring Data to help us understand who uses the Site and to improve and market it, as well as our other web sites and services. Unless combined with Personal Data, Monitoring Data does not personally identify you or any other user, and we may use it for any purpose.

- Aggregated Data

We may aggregate Personal Data in a manner such that the end-product does not personally identify you or any other user of the Site, for example, by using information to calculate the percentage of our users who have a particular telephone area code. Such aggregate information may also be used for any purpose.

- Cookies

To enhance the Internet experience on the Site, Rockport and our service providers may use 'cookies' on the Site. Cookies are data that a web server transfers to an individual's computer for recordkeeping and other purposes. We use cookies and other technologies to facilitate users' ongoing access to and use of our Site. If you do not want information collected through the use of cookies, there is a simple procedure in most browsers that allows you to automatically decline cookies, or to be given the choice of declining or accepting the transfer of a particular cookie, or cookies from a particular web

site, to your computer. If cookies are disabled, however, all features of the Site may not operate as intended. Information about disabling cookies can be found on your Internet browser provider's web site. The Site may have a Cookie Policy that applies to its use of cookies and other similar tracking technologies. If it does, then the Cookie Policy will apply in addition to this Privacy Policy.

- Tools

We and our service providers may also use various common Internet tools such as 'pixel tags,' 'action tags,' 'web beacons,' '.gif tags,' 'JavaScript' or similar technologies (together, "Tools") in connection with Site pages and email messages in certain formats to, among other things, track the actions of Site users and email recipients, to determine the success of marketing campaigns and to compile statistics about Site usage and response rates. Tools allow us to count users who have visited certain pages of the Site, to deliver services, and to help determine the effectiveness of promotional or advertising campaigns. When used in email messages in certain formats, Tools can tell the sender whether and when the email has been opened. Rockport uses cookies and Tools to understand how the Site is used and to customize and enhance the Internet experience of individual users. When you revisit the Site, Rockport may recognize you by a Tool and customize your experience. For example, once you have completed the registration process, a cookie and/or Tool will be used to avoid having you register again. We believe cookies and Tools add value to the user experience. We do not respond to browser do-not-track signals at this time.

- Google Analytics

We use Google Analytics and HubSpot, which uses cookies and other similar technologies, to collect and analyze information about Site use and to report

on activities and trends. The service may also collect information regarding the use of other websites, apps and online resources. You can learn about Google's and HubSpot's practices by going to <https://policies.google.com/technologies/partner-sites> and <https://legal.hubspot.com/privacy-policy>.

- Verification

We may use third-party services to verify that you are a human user. Any information collected as part of such verification is subject to the privacy policy of the third-party service provider.

- IP Addresses

When you visit and interact with the Site, we and our third-party service providers may collect Internet Protocol (IP) addresses. Your IP address is a number that is automatically assigned to the computer that you are using by your Internet Service Provider (ISP). This number is identified and logged automatically in our server log files whenever you visit the Site, along with the time(s) of your visit(s) and the page(s) that you visited. We use IP addresses to understand how the Site is used by our users, to improve the Site, and to enhance user experience of the Site. We may also derive your approximate location from your IP address.

If we are required to treat Other Data as Personal Data under applicable law, then we may use and disclose it for the purposes described above, as well as for the purposes for which we use and disclose Personal Data as detailed in this Privacy Policy.

Our Advertising

We may use third-party advertising companies to serve advertisements regarding products and services that may be of interest to you when you access and use the Site, our apps, and other websites or online services, based on information relating to your access to and use of the Site and other websites or online services on any of your devices, as well as on information received from third parties. To do so, these companies may place or recognize a unique cookie on your browser (including through the use of pixel tags). They may also use these technologies, along with information they collect about your online use, to recognize you across the devices you use, such as a mobile phone and a laptop.
